MOBILE PAYMENTS
FROM THE EPOS NOW APPSTORE

Zapper
Customer scans the QR code on their bill with the Zapper app on their smartphone.
They can split the bill amongst several people, add tips and give feedback on their experience.
Payment is taken from their saved bank card, and automatically reconciled with Epos Now.

iZettle
Take card payments through the Epos Now app on your iPhone, iPad or Android device.
Accept chip & pin, contactless and Apple Pay payments seamlessly.
The more you sell, the less you pay. Transaction fees start at 2.75% and drop to as little as 1.50%.

Boppl
Customer places orders through the Boppl iOS & Android app.
The order appears on your Epos Now system alerting you to prepare it.
Customer pays directly on Boppl, with the transaction automatically being completed on Epos Now.

App4
Create your own iOS and Android app, tailored to your business's branding.
Allow your customers to view your menu, book tables and place orders.
All orders automatically appear on your Epos Now system, and are sent to your kitchen.
